

Safety & Maintenance

Choose the safest possible location for your Backyard Adventures playset.

It is very important to assemble your playset level, so it can rest securely on the ground. You should also maintain a safe play area around your play system. Ideally, any stationary component such as a fort, ladder, slide, or rock wall should be no less than six feet from any structure or obstruction including a fence, tree, electrical wires, curbing, or a house.

Choose the most sensible ground cover for your dedicated play area.

You have many options when it comes to ground cover; to name a few, wood chips, sand, pea-gravel, or rubber mulch. You may also choose to just place your set directly on the grass or artificial turf. (Although grass is not the ideal cover for the safest play, it is common.) An absolute no-no is to place your playset over concrete or asphalt, regardless if you add any of the above listed ground covers.

Take care of your playset just like any other big investment.

Periodic tightening of nuts and bolts will ensure the safety of your children while at play. In addition, an annual "tune-up" for your playset is highly recommended. Please contact your local dealer to inquire about their service program, which may include a complete safety check, playset cleaning, light sanding where needed, hardware tightening and last but not least, an application of Backyard Adventures original stain. By doing so, your investment is sure to last a lifetime!
